Re: Information Regarding Extended Turnaround Time for Cystic fibrosis Screen (CFS).

Dear Colleague,

With the current situation we face with the outbreak of Covid-19 our referral laboratory have informed us the turnaround time (TAT) for CFS will be extended with immediate effect.

Previous TAT	New TAT to be applied
5 working days	10 working days

Please note this extension in TAT may also affect our Genetic Reproductive Profile (GRP) as CFS is a component of this profile.

We would like to thank you for your continued patience during this unprecedented period and apologise for the inconvenience this may cause to you or your patients.

We will keep you updated on any further information.

If you would like additional information regarding this test please do not hesitate to contact us on 1800 303 349 or email us at info@medlabpathology.ie.

Please do not hesitate to contact me with any further queries you may have.

Yours sincerely,

Dr Eibhlis O'Donovan - Medical Director
